DO YOU KNOW

That Dr. Pierce's Favorite Prescription is the only medicine sold through druggists for woman's weaknesses and peculiar ailments that does not contain large quantities of alcohol? It is also the only medicine, especially prepared for the cure of the delicate diseases peculiar to women, the maker of which is not afraid to take his patients into his full confidence, by printing upon each bottle wrapper all the ingredients entering into the medicine. Ask your druggist if this is not true.

"Favorite Prescription," too, is the only medicine for women, all the ingredients of which have the unqualified endorsement of the leading medical writers of the several schools of practice, recommending them for the cure of the diseases for which the "Prescription" is advised. Write to Dr. R. V. Pierce, Buffalo, N. Y., for a *free* booklet, and read the numerous extracts from standard medical authorities praising the several ingredients of which Dr. Pierce's medicines are made, and don't forget that no other medicines put up for sale through druggists for domestic use can show any such *professional* endorsement. This, of itself, is of far more weight and importance than any amount of so-called "testimonials" so conspicuously flaunted before the public, in favor of the alcoholic compounds.

The "Favorite Prescription" cures all woman's peculiar weaknesses and derangements, thus banishing the periodical headaches, backaches, bearing-down distress, tenderness and dragging-down sensations in lower abdomen, accompanied by weakening and disagreeable catarrhal, pelvic drains and kindred symptoms.

Dr. Pierce and his staff of skilled specialists may be consulted free by addressing as above. All correspondence is treated as sacredly confidential. By consulting in this way the disagreeable questionings and personal "examinations" are avoided.

The People's Common Sense Medical Adviser contains some very interesting and valuable chapters on the diseases peculiar to women. It contains over one thousand pages. It is sent post paid, on receipt of sufficient in one-cent stamps to pay cost of mailing only, or 21 cents for a copy in flexible paper covers, or 31 cents for a cloth-bound copy. Address Dr. R. V. Pierce as above.

Dr. Pierce's Pellets regulate and invigorate stomach, liver and bowels. One a laxative, two or three cathartic.

Nasal CATARRH

In all its stages.

Ely's Cream Balm

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents.

HILL SOUNDS WARNING.

James J. Hill was the principal speaker Saturday night at a banquet given at the Auditorium Hotel, under the auspices of the Chicago Commercial Association. His theme was "The Development of the Northwest. Mr. Hill said, in part:

"These, briefly, are the certainties of the next fifty years, supported by facts ascertained beyond possibility of error. By the middle of this century our population will be more than 200,000,000. Where are these people to find profitable occupation? How are they to obtain the necessities of life? The question is already pressing upon great cities like Chicago where immigration concentrates. But these new comers cannot be excluded. Labor was never as scarce; wages were never as high as at the present day. We cannot stop the inflow or check the natural increase. We must determine, however, upon a national economy different from the present, when our population is approaching three times what it was in 1900. Striking as has been found the contrast between the present and 1850 and 1900 will reveal more serious features.

"The costliest error will be in clinging to the delusion that we are to continue to increase our exports and to live upon the profits of the foreign market. The time is coming when we shall need our wheat crop for home consumption and seed; when our mines will not yield, except at increased cost, the iron and steel required to manufacture commodities consumed at home; and when the cheap labor of the Orient, whose wages we cannot hope to meet, equipped with our machinery, will vanquish all competitors. To a return to agriculture, to a jealous care of our land resources, we must come without delay if we are to escape disaster.

"Next in importance to the soil comes transportation. Already the growth of our commerce between the Mississippi river and the Atlantic coast finds itself delayed and hampered for want of additional lines and terminal facilities. And throughout the whole country there is a rising call for more tracks, more engines, more cars. But money invested in railways expects a fair return, and it also expects the same measure of protection that is accorded other property.

"The enormous pressure of masses of people seems to crush out the hope and energy and prosperity of a large proportion of them, and the great problem of modern progress, after all, is how to deal with this tendency—how to prevent the forces of advancing social evolution from being destructive as well as creative. This is the problem of the nation, and it is, in a special sense, the problem of the Northwest."

Says Race War is Imminent.

In a speech on the race problem delivered at Augusta, Ga., last Saturday night. Senator B. R. Tillman declared the time had come when the South must act, and suggested the adoption of a European passport system by which each person must have a certificate of good character before moving from a residence or home, or before being received into a new section, and that any person without such certificate be imprisoned.

This, he admitted, would be placing great inconvenience on the whites, who would have to be included in the law because of the Fifteenth amendment, but he declared if this plan or some peaceable one was not adopted immediately, the country was surely rushing toward the brink of an abyss, which meant a horrible and bloody race war of extermination.

The Atlanta riots, he declared, had illuminated the situation and shown the people they were living on the crust of a volcano. The riot, he believed, would too soon be repeated in other sections if no other solution of the problem was found.

Women Garotters.

Two women have been arrested who masqueraded as men and made a trade of garotting and robbing people in the streets of Paris. A policeman came on them in the early hours of last Friday morning while they were in the act of garotting a man in the Avenue de la Grand Armee. The two viragos left their victim and turned fiercely on the policeman, one of them burying her teeth in his neck. Fortunately, reinforcements arrived, and the women desperadoes were taken to the station. They were found to be plentifully tatooed with hearts pierced by Cupid's arrows, and were both armed with revolvers and knives. They confessed that they sent some of the proceeds of their robberies to their friends serving in the penal settlements of Guiana.

Human Blood Marks.

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant of Bac, Ky., He writes: "Twenty years ago I had severe hemorrhages of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." It cures Hemmorhages, Chronic Coughs, Settled Colds and Bronchitis, and is the only known cure for Weak Lungs. Every bottle guaranteed by E. S. Leadbeater & Sons, Druggists' 50c and $1.00. Trial bottle free.

The Bishop Danced Unclad.

Queer stories of the carrying on of the Aglipayano bishop allotted to one of the Mindanoa districts have reached Manila.

It is reported that after having looked upon the cup when it is red he endeavored to emulate the great King David in his terpsichorean act in Garden of Eden attire—only the reverend bishop did use a covering of sorts, as around his neck he wore a gold chain to which was suspended the cross of his rank. It is said by those who have just come from the town where the bishop pirouetted in cross and chain that the revelry which abounded in the temporary resting place of the cleric was far and away beyond even the revels de cribed in Boccaccio's "Decameron." The dance he is reported to have done in the altogether took place in a yard adjoining the house, before a large number of his church adherents.

And though the ranks vociferating, he call'd
His Trojans on.

Among the many things the worthy bishop is reported to have done is the consecrating of a muchacho to be a priest of the church. This was done, it is also said, after the cup that cheers had been imbibed of freely but not too well. The name of the prelate has been withheld from publication only out of consideration for his cloth, such as it is.—[Manila Times.

Stampede of Negroes.

The free bridge between Little Rock, Ark., and Argenta was covered with negroes last night. Fully 300 deserted their homes in that city and went to Little Rock to spend the night, The leaders stated that they were afraid to remain in Argenta after dark for fear of an outbreak by the whites, similar to the one Saturday night. Coroner Vaughter held an inquest yesterday afternoon over the body of John Lindsay, who was killed in Argenta Saturday night, and a verdict was returned that he met his death at the hands of Garrett and Charles Cullum and Lewis Styles, negroes. His body was riddled with shots from rifles. Alton Lindsay, a policeman, who was shot at the same time, is still alive. George Blackwell, a negro, was taken from the jail by a mob in Argenta last night and was hanged. He was suspected of killing John Lindsay Saturday night. The other three suspects, Charles and Garrett Cullum and Lewis Styles, have not been caught, and there is some doubt that the right man was lynched

Babe Burned in Stove.

To get rid of her one-day-old baby Mrs. Catharine Zinchard, 22 years old, of north Lawrence street, Philadelphia, according to the police, put the infant in a cook stove, poured coal oil on its body, set fire to paper and kindling which she had thrown over the diminutive form, and then calmly watched the child crumble into ashes. The motive for this strange crime, the mother declared to the police, was that she and her husband, who had been married only a short time, did not want to be bothered with the care of the baby. Mrs. Zinchard was arrested Saturday at her home. She will be held by a magistrate to await the action of the coroner.

All the good qualities of Ely's Cream Balm, solid, are found in Liquid Cream Balm, which is intended for use in atomizers. That it is an unfailing cure for Nasal Catarrh is proved by an ever-increasing mass of testimony. It does not dry out nor rasp the tender air-passages. It allays the inflamation and goes straight to the root of the disease. Obstinate old cases have been cured in a few weeks. JEWELRY.

Going Housekeeping?

If so, you can hardly get along without spoons, knives and forks. The silver-plated are without a doubt the most economical in the end. They wear longer, look better and cost very little more than the ordinary kinds. We can even supply silver-plated knives with steel blades.

Your sideboard is hardly complete without a silver set. Silver cake and fruit baskets should also be placed there.

A candelabra with will brighten the table considerably. After the spread has been cleared off a silver fern dish should be placed on the table.

The necessary things in cut-glass are the decanter, the berry bowl and the celery dish. In a great many homes the ice cream is served on cut glass plates.

On your dresser place a traveling alarm clock and a sterling silver or silver-plated toilet set, also a hat and clothes brush.

You will find plenty use of a number of small silver-plated trays. One has always so many trinkets to take care of.

There should be a jewel case on the dresser, if only for appearance sake. Over night it is a good place to keep the watch and Z—K Gold Chain.

SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING. OCT. 8, 1906.

"ANOTHER new engine and a little wind, and the town will burn up." Thus spoke a citizen of the First ward early yesterday morning as he stood looking at the buildings in the shipyard burn, while the firemen standing around the steamers were apparenily at an utter loss to know how to get water on the flames. There seemed to have been no head, and certainly little judgment was shown in managing the fire department. Indeed there was no management at all. In the first place the department was not over prompt in getting to the scene. The new Columbia engine was the first to arrive and took its station at the plug at the corner of Lee and Franklin streets. It was at once discovered that the "coupling" of the new engine would not fit the plug opening and instead of removing the engine from the plug at once and taking it to the river it was allowed to stand idle for some time. In the meantime the Reliance had arrived at the plug at the corner of Gibbon and Lee streets, one square north, but no effort was made to connect with that plug or to lay a line of hose from that point to the fire. Then the Chief drove past both engines and having ascertained the cause of the trouble, left it to those in charge of the Columbia whether they would move the engine from the plug and allow the Reliance to take its place. But no move was made for some time, however, both engines standing motionless within a square of one another. Finally the Columbia engine was moved from the plug nearest the fire and after another delay the Reliance engine was called to "drop down" and take the place. The Reliance was then coupled to the plug and began throwing water upon the flames which in the meantime had spread to all the buildings to the south and east of the one in which the fire had started. The new engine was then taken back to its house and the Reliance remained in service till about 7 o'clock, but was unable to save any of the buildings, the fire having gained too great a headway during the delays. There seems to have been no excuse for the mismanagement. In the first place, the fact that the new engine's couplings did not fit the fire plugs was a gross oversight. The engine had been tested and accepted by the fire wardens but it now appears that no one (not even the Washington "expert" who was employed for the purpose) had thought of testing the new machine at a plug after it had been tried at the river. When it was found that the couplings of the new engine would not fit the plug some one having authority should at once have ordered it to the river, just at hand, but this was not done. Neither was there any excuse for the Reliance not coupling to the plug at Lee and Gibbon streets and running a line of hose to the fire. It was stated at the time that the engine did not have sufficient hose, but this is not so, for a double line was run from the corner of Lee and Franklin streets to the fire, and one of those lines would have extended from Gibbon street to Franklin. Besides there was more hose in the wagons on the spot and someone in authority should have had the judgment to act sensibly in such an emergency. Certainly the fire was badly managed and there is no excuse for such mismanagement.

THE BELIEF is growing in political circles that President Roosevelt will send a message to Congress before his term expires recommending the imposition of an income tax, or some form of government rake-off on private fortunes. Such a measure was once passed by a democratic Congress but the Supreme Court after one of its members had changed his mind during the night declared it to be unconstitutional by a vote of 5 to 4. The measure will again be very popular among the plain people but doubtless will again be opposed by the millionaires

CHAIRMAN SHERMAN of the republican congressional committee has realized his hopes of a large campaign fund, though it did not by any means come from $1 subscriptions. But with the $60,000 that Secretary Cortelyou had left over from 1904 as the result of raiding the life insurance funds and the contributions of the trusts and protected monopolists, he now has money to burn and republican workers should demand their share as usual.

E. H. R. GREEN, of Terrell, president of the Texas Midland Railroad, has withdrawn as the "reorganized republican" nominee for governor of Texas. The voters would have withdrawn him all right had he remained in the field till election day.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Oct. 8.

President Roosevelt issued an order today continuing the life of the Spanish Treaty Claims Commission to March 2, 1907. Ex-Senator William E. Chandler, of New Hampshire, is chairman of the commission, and the very fact that he occupies the well paying job will probably open the eyes of a good many persons when they hear of the order issued by the President today. Mr. Chandler, it will be remembered, figured in the sensational railroad rate episode last winter in which a question of veracity was raised between the President and the chairman of the Treaty Claims Commission. Mr. Chandler acted as the go-between in the negotiations carried on over the rate bill by the President and Senator Tillman, of South Carolina. After failing to get the support for the bill that he desired from the republican side of the Senate, the President opened up negotiations with the democrats. Afterwards the President and certain republican Senators became reconciled, and, according to Mr. Chandler, the "ideal" with the democrats was declared off over night. The bitter correspondence that passed between the President and Mr. Chandler made one of the spiciest chapters of the winter's political history, and it was generally supposed that the President would soon take occasion to separate Mr. Chandler from his lucrative job. That he did so was supposed to be because the life of the Claims Commission was so sood to end. Today's official order, continuing Mr. Chandler in his place, proves the President to be of a most forgiving nature.

With hurrahs for President Roosevelt, "their comrade," the delegates to the third annual encampment of the Spanish-American war veterans began their session today in the drill hall of the local National Guard. To a cordial address of welcome from Commissioner Macfarland, of the District of Columbia, Commander-in-Chief Charles R. Miller, of Cleveland, and Mrs. Mary D. Gedney, of Mt. Vernon, N. Y., Commander-in-chief of the Ladies' Auxiliary, responded. The morning session was mainly devoted to speech making and hearing reports of officers. The meeting was brief and formal, the court adjourning a few minutes after noon. The real business of the court will not begin until tomorrow.

The U. S. Supreme Court met today. Previous to adjournment to go to the White House, the court heard motions for the admission of attorneys to practice there. Woman Frightfully Scalded.

New York, Oct. 8.—About to take a warm bath before retiring to sleep, Mrs. George H. Jenks, wife of a wealthy and prominent physician of Chicago, was frightfully scalded last night in the Waldorf-Astoria Hotel. Her condition is serious today. Mrs. Jenks turned on the water in the tub, and thought she had gauged the temperature. Instead, however, the water was nearly at the boiling point. Hastening from her bed room to the bath, she stepped into the hot water. Her screams, as she lay helpless in the tub, almost submerged, aroused those on the floor with her in the hotel and she was in a state of collapse when her husband assisted her from the bath. The hotel physician was hastily called, and with Dr. Jenks made the sufferer as comfortable as possible.

Disappearance of Hedges.

New York, Oct. 8.—J. K. Hedges, the coachman who was figured in the domestic troubles of Thomas Collier Platt, has disappeared from the country home of the Senator, Tioga Lodge, Highland Mills. Whether he left at the request of Mrs. Platt, or at the command of the Senator is a question. Mrs. Platt is entrenched in Tioga Lodge. All about the place are dogs and men servants to guard the entrances. No one is allowed to enter. Mrs. Platt says her marital relations do not concern the public. It is said that the lawyers representing the Senator and his wife are now trying to arrange a settlement of their differences.

Charged with Poisoning His Wife.

Toms River, N. J., Oct. 8 —The formal trial to establish judicially what practically every person in this and adjoining counties has settled to his own satisfaction, was begun today when Dr. Frank Brouwer was arranged on the charge of murdering his wife. It is hard to find a person who does not hold a positive opinion as to the guilt or innocence of the defendant. Arsenic and ground glass are alleged to have been administered to Mrs. Brouwer. Another woman, with whom Dr. Brouwer is supposed to have been infatuated, is alleged by the prosecution to have been the motive for the deed. She is Miss Stella McClenahan, former governess of the Brouwer children. She has come out against Dr. Brouwer, and will be one of the chief witnesses for the prosecution. Charges made by Mrs. Brouwer's relatives started the investigation. The woman had been buried some time. Bright's disease was given by the doctor as the cause of her death, and a burial certificate was issued. An autopsy after the body had been exhumed months later, disclosed evidences of poisoning which led to the indictment.

Mrs. Brouwer's death came as the sequel to her return to her home which she had left because of a quarrel with the doctor over the presence of the governess. She is also said to have made statements to her relatives that she knew she had been poisoned. With these facts as a basis they started the investigation which resulted in bringing Brouwer to trial.

Mrs. Brouwer died September 25, 1905 Her screams just before death were so terrible that a neighbor ran to the house. Death occurred at 4:15 in the morning and by daylight Dr. Brouwer had an undertaker embalming the body. Mrs. Brouwer was buried two days later.

During Mrs. Brouwer's illness, her sister, Miss Hyer, called on her. She says Mrs. Brouwer said that she knew she had been poisoned. Miss Hyer told this to other relatives who took the matter to the authorities On December 20 the body was exhumed and the autopsy held. On the strength of the discoveries then made an indictment was returned May 23.

Dr. Brouwer has asserted his innocence from the first. Today when brought into court he was calm and collected. If he is guilty he is an exceedingly good actor.

The court room was crowded and as he marched to his seat the doctor passed scores of persons who plainly showed their feelings by giving him a friendly nod or facing him with sneers on their faces.

Conditions in Cuba.

Havana, Oct. 8—Comparatively little material damage was wrought in Cuba by the revolution recently closed by American intervention. There is none of the devastation which usually marks an insurrection to be seen in the country through which the insurgent forces operated. A tour of the districts which were most affected by the revolution shows that little destruction attended the rebellion.

Already steps are being taken to make up for the time lost by the farmers and planters as the result of the war. Farmers have returned to their homes and with their laborers assisting them are hard at work ploughing. Everywhere the people are returning to their customary labors.

On their foraging expeditions the insurgents made no effort to destroy standing crops, burn buildings or devastate the countryside. They took only what they needed for their immediate necessities.

In respect to the amount of damage of this sort done, the Cuban revolution was the cheapest insurrection witnessed in the West Indies for many years.

Havana, Oct. 8 — Three hundred additional marines are be hurried to Guines today to prevent a recurrence of yesterday's outbreak when rebels and former volunteers engaged in a fight in which four of the volunteers were slashed with machetes.

Guines is reported to be in an uproar and it is feared further trouble may occur before the marines can reach the spot. How serious the situation is regarded is shown by the fact that both General Funston and Colonel Estrampes, commander of the volunteers, are on their way there with the marines.

Feeling is high between the insurgents and the former volunteers, and the latter have laid down their arms, and for that reason are practically helpless against the rebels, many of whom still retain their arms.

The marines in Guines are not of sufficient number to keep the opposing forces in subjection if a general outbreak comes.

New York Democrats.

New York, Oct. 8.—The independence league and Tammany Hall will likely agree upon their differences and agree upon a split ticket. After a conference that lasted until early today the executive committee of the league issued a statement announcing that the league would put a full county ticket in the field, but would indorse those candidates whose records have been above reproach.

This indicates that Tammany assembly men will be indorsed in about seventeen districts and the league will obtain the remainder and be indorsed by Tammany. The league in the statement believes that it will be well to remove the question of the judiciary and parties nominated at a non-partisan ticket "without the suggestion of corporation influence." Tammany woods are full of candidates for the Supreme Court bench, and it is most unlikely that all the parties will get together on the league's proposition.

Arrest of Supposed Kidnapper.

New York, Oct. 8.—James Brady, a hack driver, was arraigned in the Yorkville police court today charged with being implicated in the attempt to kidnap little Miss Eugenie Ladenburg, the heiress daughter of Mrs. Adolf Ladenburg, while the girl was riding home from the Piping Rock horse show Friday evening. The detectives admit the evidence against him is not strong, but they hoped to be able to secure a continuance of the case, so that they will have more time to work on the case.

Leprosy in Portugal.

Lisbon, Portugal, Oct. 8.—Leprosy has been flourishing for years without an effort being made to check it within fifteen miles of Lisbon. This fact which has just been brought to light has caused a panic throughout Portugal. The little town of Castroverde is the place where the disease has had its spread. Medical experts who have been sent there have found 127 cases of pure leprosy. No effort has been made to isolate the victims of the disease or other inhabitants of the town, as no one dreamed what the malady was from which they suffered, and it is feared persons who have gone to other localities may have carried the infection with them. Attention was first attracted to the little town on account of the abnormally high death rate reported there. Experts sent to discover the cause found that it was leprosy which had caused so many deaths. Steps have already been taken by the authorities to isolate the town and careful watch will be kept by medical officials throughout the country for the appearance of the dread disease at other points.

Suicide Identified.

New York, Oct. 8.—Mary Greeley, the young woman who said she was tired of her two beautiful children because they were in her way, is the mysterious woman who leaped from the pier at east 36th street some days ago, and was drowned. The identification was made today. This young woman, dressed in her best, appeared before Police Sergeant Brenner in the Tenderloin station last week late at night. To her skirts clung two children, Catharine, aged 6, and Lillian, three years younger. The children seemed to love their mother and she seemed to love them, but she said: "I don't want them; they are in my way. I have been having a good time all summer, and I want to continue to have a good time." The children were sent to the rooms of the Children's Society and the mother to Bellevue, as it was thought she was mentally unbalanced. Released from Bellevue two days later, the woman did not go to claim her children, but went to the pier and jumped into the East river.

Another Slaughter of Jews.

St. Petersburg, Oct. 8.—Terrible massacre of Jews, extending over a period of six week, have occurred in Siberia. News of the occurrences there in which hundreds of lives are reported to have been lost, has been suppressed.

Irkutsk and Tomsk have been the scenes of pogroms equallying that at Siedlce recently. Soldiers were the instigators of the massacre and took an active part in the killing and torturing of helpless Jews. Women were the principal sufferers. The worst massacre was at Tomsk where Russian soldiers and Calmucks made concerted attacks upon Hebrews.

Al. Adam's Will.

New York, Oct. 8.—The will of the late "Al" Adams, known throughout the country, as the "policy ring," was filed today. It is said that on the face of it, the testament does not reveal the real size of the estate which is estimated at between $8,000,000 and $10,000,000. The will shows a total estate of $60,000,000, of which $50,000 is in real property, and $100,000 in personal property. Not one cent of the fortune went to charity. One third of the estate goes to the "policy king's" wife, while the remaining two-thirds, go to his children. However, three small requests are made to relatives.

Schooner Pounding to Pieces.

The schooner was carried against the pier in the gale of Saturday night, while trying to make the harbor. The boat is owned by the Keeley Lumber Company of Buffalo.

This message was sent out from the telephone exchange, whose building is on fire.

Fire at the Shipyard.

Shortly before four o'clock yesterday morning a fire broke out in the engine house at the shipyard, foot of Franklin street. A frame structure, used by the National Electric Supply Company, adjoined the engine house, and in consequence of the combustible nature of the buildings and their contents, the fire gained considerable headway before the arrival of the steam engines.

At the Alexandria plant of the National Electric Supply Company, locust pins for cross-arms of telegraph poles are turned out in large quantities each day, and thousands of them were stored in a building adjoining the mill on the north. The storeroom was damaged but its contents were saved, as was the greater part of the rough material on hand, but the mill was destroyed and the machinery greatly damaged.

The plant of the Marine Railway and Coal Company, which adjoins on the south, was also badly damaged, though the railway and cradle were saved This is the second time the railway buildings have been destroyed in recent years.

The damage to both plants is estimated, at between $4,000 and $5,000, partially covered by insurance.

An oversight when the new No. 4 fire engine, Columbia, was tested and accepted several days ago caused fifteen to twenty minutes delay yesterday morning in getting water on the blaze.

The new engine reached the grounds ahead of the No. 5 engine, the Reliance, and took position at the plug nearest the fire. No. 5 engine stood at a plug a square north. It was discovered that the threads on the suction pipe of the new engine were too small for those on the plug, and it was impossible to make connection.

It appears that the new engine had been tested at the river, some days before but not at any of the plugs of the city, and to this oversight is assigned the trouble yesterday morning.

After considerable delay it was necessary to retire No. 5. Meantime a stiff breeze from the west had fanned the fire and a stubborn fight, which lasted two hours and a quarter, was necessary before the flames were extinguished

The suction pipe of the new engine is now adjusted to the city fire plugs, and it is hoped, there will be no repetition of yesterday morning's trouble .

The property destroyed, except the machinery of the National Electric Supply Company, was owned by Mr. Park Agnew. The buildings will at once be rebuilt and work resumed as soon as possible.

Found Dead.

John Lucas, colored, early yesterday morning found the dead body of David Brown, a well-known resident of this city, near the intersection of Princess and Union streets. He seemed to have been dead but a short time. The station house was notified and Officers Roberts and Young went to the place where they found the body in a sitting position. Ex-Chief Webster notified Dr. Moore, the Coroner, and the latter had the body removed to the undertaking rooms of Mr. B. Wheatley, where Dr. William M. Smith performed an autopsy. He reported that death was caused by a valvular affection of the heart, and the body was then conveyed to the residence of Mr. George W. Brown, a brother-in-law of the deceased at 107 north Royal street. The jury was composed of Messrs. Joseph Lowenbach, foreman, M. Pretzfeller, James Callan, C. F. Creighton, M. L. Risheill and J. A. Ewald. Mr. Brown was about forty years old and unmarried. Until the closing of Luna Park last week he had been employed at that resort. He was at the fire at the Marine Railway and Coal Company's plant early yesterday morning and vied with others in extinguishing the flames.

Will Stop at Steel Plant Wharf.

The manager of the new steel plant which is being constructed on the District side of the river near Geisboro Point has completed arrangements with Mr. John Callahan, manager of the Washington-Alexandria ferry line, to have the steamers stop at the steel plant pier as soon as the water in front of the pier is made deep enough for the boats to go to the pier. The arrangements made call for the stopping at the pier two trips in the early morning, two about noon and two in the evening, after working hours, in order to get the mechanics who will be employed at the plant to and from their work. Within the next six weeks, it is said, operations will be started at the big works. When the plant is in full operation a force of several hundred men will be employed, all of whom will live either in Alexandria or Washington, and will travel to and from their work daily.

Minister Called.

A meeting of the congregation of the Second Presbyterian Church was held yesterday for the purpose of extending a call to a minister. Elder A. G. Uhler was elected moderator, and Deacon F. L. Slaymaker secretary. On the third ballot Rev. W. H. T. Squires, of Bristol, Va., was declared to be the choice of the congregation, after which the vote was made unanimous. Six ministers were placed in nomination—Rev. Messrs. J. S. Sibley, of Pensacola, Fla.; Joseph S. Sevier, of Lynchburg; W. E. Hill, of Hot Springs; W. H. T. Squires, of Bristol; C. L. Myers, of Williamston W. Va.; R. E. C. Lawson, of Henderson, Kentucky. The pulpit of the Second Presbyterian Church has been vacant since the first of last January.

Must Make Formal Charges.

Mr. Charles Bendheim, attorney for the Brotherhood of Locomotive Engineers, was notified by the Commissioners of the District of Columbia yesterday to submit to the major and superintendent of police formal charges against the members of the police force, who are alleged to have acted in an inefficient manner on the night Engineer Hugh Murphy was scalded to death under his overturned engine.

John, the infant son of Mr. and Mrs. W. B. Nowlin, died at his parents' residence, 1422 Duke street, yesterday.

Opera House.

A crowded house greeted the Runkel Stock Company at the Opera House Saturday night to witness the presentation of "Queen's Evidence," a four act English melo-drama The play was full of intense dramatic interest and abounded in good comedy lines. Each and every part was portrayed in an excellent manner and a fine, smooth production was given. The specialties, which were again changed, were heartily enjoyed. Tonight and the balance of this week the Runkel Company will produce the strongest plays in its reportoire. Also new specialties will be presented and everything done to give a clever performance. Tonight the company will produce "The Penalty of Pride," a play that will please every one. A great many requests have been made for a renewal of the specialty given last Monday night by the Breton-Runkel Trio, and its presentation is expected tonight.

Decline to Receive Freight.

It is stated that the agents of the Maryland, Delaware and Virginia Railway Company's steamers at Alexandria and Washington have been instructed not to receive freight of any character for transportation to the wharves on the lower river at which the steamers stop. These boats are all tied up at Baltimore by the strike of their deck officers for more pay, and since Tuesday evening last there have been no railway line boats from this city for the lower river and Baltimore, or from Baltimore coming this way. The steamers involved are the Anne Arundel, Capt. William Geoheghan; the Northumberland, Capt. Joseph Smith, and the Calvert, Capt. Herbert Bohannon. It is stated there are hundreds of cases of eggs, hogsheads of tobacco and other goods waiting on the lower river wharves for transportation to Baltimore.

Fined Fifty Dollars.

Considerable excitement was caused on Royal street, near Prince, last night by a man, who was breaking up furniture in his house and terrorizing his family. He was assaulting and beating his wife when five soldiers, who were in the neighborhood, went to the woman's assistance. The soldiers were about to handle the man in a rough manner, but his wife begged them to desist. They finally brought him out on the street and turned him over to Officer Bettis. the man was brought before Justice Caton in the Police Court this morning and fined $50, and in default of payment he will be sent to jail for 90 days.

Signs of Brain Exhaustion.

A doctor says that when a person begins to have doubts about the spelling of common words, to write an unnaturally small hand that shows a tendency to waver above and below a straight line and to grasp the pen with unnecessary force, especially at the end of a long word, then that person is suffering from brain exhaustion and ought either to take a complete rest or else to find work of an altogether new and different kind.

An Old Proverb.

D. and is found in the precise form now quoted in Richard Franck's "Northern Memoirs" (printed in London in 1694) and in various later English writers.

Opening of the New Silks.

We have succeeded in securing from the foremost manufacturers, European and American, such and abundance of rare and beautiful weaves that our exhibition of them is a seriatable exhibition of textile art

Never before have we offered such a wealth of silken materials, whose colors, weaves, designs, and textures preface a season of such superb gowning. And our exclusive, luxurious fabrics are augmented by a collection of less expensive silks.

Among the leading weaves are:

Satin Charmeuse, Chiffon Faille, Peau de Cygne, Electra, Satin Lumineux, Pekin-striped Satin, Satin Galathea, Plaids Jardinier d'Or, Hand-Painted Satin, Crepe Meteor, Warp-printed Taffetas, Printed Crepe Messaline, Korean Silk, Plaid Taffetas, Persian Taffetas.

Pile Fabrics-Velvets and Velveteens.

Velvet is an old time favorite that will be very popular this season for entire costumes and empire coats. It is shown in such variety and rich effects as to surpass the superb fabrics of last season.

Our supply includes all the best foreign weaves, in the newest shades. A handsome fabric quite as much sought as velvet is Linden Zephyr Velvet, a very rich and beautiful weave that builds into splendid gowns for either day or evening wear.

Never before in the history of Dress Trimmings has there been such a lavish display of materials so varied in shape and detail that it is well-nigh impossible to go amiss in the matter of choice.

An almost endless variety of gimps is shown in many combinations of colors and braids, and the richness of the intermingled silks, velvets, and Parisian touches offers a superb supply of materials with which to effect fashion's decrees in dress decoration.

Among the most attractive are:

Black Appliques, Colored Embroideries, Chiffon Appliques, Spangled Gimps, Spangled Berthas, Galloons, Medallions, Crystal Appliques, and a full line of Plain and Fancy Braids.

TUMORS CONQUERED

SERIOUS OPERATIONS AVOIDED.

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

The growth of a tumor is so sly that frequently its presence is not suspected until it is far advanced.

Mrs. Fannie D. Fox

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by profuse monthly periods, accompanied by unusual pain, from the abdomen through the groin and thighs.

If you have mysterious pains, if there are indications of inflammation or displacement, secure a bottle of Lydia E. Pinkham's Vegetable Compound right away and begin its use.

Mrs. Pinkham, of Lynn, Mass., will give you her advice if you will write her about yourself. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge.

Dear Mrs. Pinkham:—

"I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eighteen months ago my periods stopped. Shortly after I felt so badly that I submitted to a thorough examination by a physician and was told that I had a tumor and would have to undergo an operation.

"Soon after I read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed the tumor is entirely gone. I have been examined by a physician and he says I have no signs of a tumor now. It has also brought my periods around once more, and I am entirely well."—Fannie D. MONDAY EVENING. OCT. 8, 1906.

Measured the Time.

An old sailor was being examined in an assault case by a cute young lawyer, who questioned his veracity regarding a matter of time.

"You had no watch, and yet you are positive that the defendant was only ten minutes absent. I doubt if you are able to estimate ten minutes of time correctly," he said.

"Try me," said the old tar.

The lawyer drew his watch from his pocket and said, "When I call out 'Now' you allow ten minutes to pass, and when it is up call out 'Time's up.'"

The old salt nodded, and the lawyer called out "Now." Slowly the time passed, and the lawyer, with watch in hand, tried to wheedle him into an admission that time was up. The sailor paid no heed and exactly at the end of the ten minutes shouted, "Time's up." The bewildered lawyer turned round confused at the court's loud laughter, and his eye lighted on the courtroom clock behind him, which had assisted the oil sailor in his task.

Rossini's Laziness.

Rossini was one of the most indolent of men and in his younger days used to do most of his composing in bed. Once he had almost completed a trio, when the sheet fell out of his hand and went under the bed. He could not reach it, and, rather than get up, he wrote another. The lazy man, if he works at all, does so by spurts, and Rossini, working against time, wrote "The Barber of Seville" in thirteen days. When Donizetti was told of this he remarked, "It is very possible. He is so lazy!" The overture to the "Gazza Ladra" was written under curious circumstances. On the very day of the first performance of the opera not a note of the overture was written, and the manager, getting hold of Rossini, confined him in the upper loft of La Scala, setting four scene shifters on guard over him. These took the sheets as they were filled and threw them out of the windows to copyists beneath.

Subjective Drowning.

The dentist's chair was tipped so far back that escape for the village seamstress, a lady of remarkable conversational ability, was impossible. Wads of absorbent cotton were tucked beneath her tongue, some patent appliance held her jaws apart, and all the lower half of her countenance except one back tooth was concealed under a decidedly damp rubber dam. The patient's mouth was full of water, speech was impossible, and the poor, naturally talkative lady was suffering agonies of discomfort.

The engrossed dentist paid no heed to her squirmings or to the appeal in her eyes. Fortunately, however, the patient's hands were free. Groping in the reticule that hung from her belt, she brought forth paper and pencil and wrote:

"Help! Help! I'm drowning."—Youth's Companion.

A Poet's Curious Compliment.

It was the habit of Richard Henry Stoddard, the poet, to always speak well of every one. No matter how bad the character of a person, the good gray poet invariably found some trait to praise. One day in his office on Park row some friend entered and asked him whether he knew so and so and, if so, what was the man's reputation. It happened that the man had a shady reputation and was well known as a "gold brick" operator. The aged poet lighted his pipe and answered:

"Yes, I know him. He is the most energetic, progressive, irrepressible, good natured, artistic kind of an unmitigated rascal that I ever met."—Leslie's Weekly.

Cold Storage In Irish Bogs.

For long it puzzled me to know what the poachers did with the birds they shot in July. There is no cold storage in the north of Ireland, but they have discovered an excellent substitute. The birds are buried four or five feet deep in dry peat, and, I am told, come out perfectly fresh at the end of two or three weeks. When one remembers the bog butter dug out of the peat bogs in a comparatively fresh state after being buried for probably 200 or 300 years, it is not difficult to believe that grouse might keep, under the same circumstances, for two or three weeks.—Letter in Country Life.

The Tact Market.

Chancellor James R. Day was once advising a young undergraduate of Syracuse university to cultivate tact. "But, alas," he said, "I fear that advice on such a subject must always be wasted. On tact the last word was spoken by Barbey d'Aureville when he said:

"'If tact could be bought, only those already possessed of it would want to buy it.'"

Making New Rubber Plants.

From a rubber plant which is growing in a living room, the best way to get plants is by scoring the bark of the limb where you want the roots to grow and covering the injury with sphagnum moss, which must always be kept damp. Roots will soon permeate the moss, when the limb should be cut off and potted.—Garden Magazine.

Kept Her Word.

"This," said the school friend who had not seen her for a year, "this is the girl who vowed to me that she never would belong to any man, eh?"

"I don't," said she who had been married the matter of some few months or so. "He belongs to me."

Is the Moon Inabited.

Science has proven that the moon has an atmosphere, which makes life in some form possible on that satelite; but not for human beings, who have a hard enough time on this earth of ours; especially those who don't know that Electric Bitters cure Headache, Biliousness, Malaria, Chills and Fever, Jaundice, Dyspepsia, Dizziness, Torpid Liver, Kidney complaints, General Debility and Female weakness.
